Boosters—But Not Blind.

Mayor Lane told the Ad Club yesterday that the city administration desires the cooperation of the Ad Club and in particular wants less "knocking" and more boosting.

The Ad Club is by nature and applied art a boosting organization. There isn't any doubt that it will back up the city administration in worthy and progressive measures.

But—

It cannot be expected to back up the creation of a political machine de-

signed to run the city on partisan lines.

It cannot be expected to cooperate in putting in office and keeping in office men whose qualifications are based on the votes they deliver, not the work they deliver.

It cannot be expected to cooperate in playing politics with public improvements.

And—

The mayor and the rest of the city officials can count on the Ad Club to boost whenever the city administration gives it something to boost about.

The way to end knocking is to furnish the subjects for boosting.—Star-Bulletin.

On the Other Islands

Aeroplane Mail Service For Islands.

That the postoffice department, backed by the war department, is seriously planning to inaugurate a daily aeroplane mail service between Honolulu, Maui, and Hilo, is the statement made by Postmaster H. D. Corbett, of Hilo, who recently returned from a trip to Washington, according to the Hilo Tribune. Mr. Corbett, it is stated, says that Postmaster General Burleson and First Assistant Postmaster General Roper discussed the matter with him, and that he was told that an appropriation for the purpose would be asked of this session of congress.

Will Lease Hawaii Building.

The Hawaii building at the Panama-Pacific Exposition will probably be leased to the city of San Francisco at the nominal rental of \$1 per year, until the next legislature meets, when it is proposed that the property be turned over as a gift to the city. It is claimed that to remove the structure would probably cost more than the materials would bring. The Hawaii commissioners have also approved a plan to lend a portion of the exhibits in the building to the exposition at San Diego for the coming year. Some others may be sold.

Reform School Case Ended.

In less than an hour, the jury in the trial of the so-called mutiny case at the Boys' Industrial School, brought in a verdict of not guilty. Eleven boys who had been charged with unlawful assembly in connection with the trouble at the school several weeks ago were thus cleared of the charge in Judge Ashford's court in Honolulu on Tuesday. The jury recommended that the conditions at the institution, as indicated at the trial, be further looked into. Allegations of serious mismanagement formed the burden of the defense offered by the young prisoners.

Candidates For Reform School Head.

Bertram G. Rivenburgh, John C. Anderson, W. P. Fennell, and W. H. Hutton, are said to be candidates for the position of superintendent of the Boys' Industrial School, to succeed Hugh Tucker, who it is expected, will be removed on the first of the year by the new commission which takes charge at that time. The board consists of—A. P. Griffith, Dr. C. R. Cooper, Rev. Father Valentine, Miss Bertha Ben Taylor, Mrs. A. L. Andrews, Mrs. F. W. Macfarlane, and Judge William L. Whitney, ex-officio member.

Waiahole Tunnel Through.

On Tuesday of this week, Contractor Jorgen Jorgensen, of the big Waiahole tunnel, which for two years has been in process of construction through the Koolau range, on Oahu, set the last blast which brought together the bores from either side of the mountain. The tunnel is being built for the Oahu Sugar Company, and will supply a great flow of water from the windward side of the island, and from the heavy flows developed in the tunnel itself.

Plan Military Training for Punahou.

The board of trustees of Punahou Academy are considering the proposal that military training be made a part of the work of the academy and for a portion of the boys of the preparatory school. If the plan is adopted, it will mean that the military feature will be at least partially compulsory. The idea is fathered by L. A. Thurston, of the trustees.

Bishop Gets a Ford.

A Printed Letterhead

Adds distinction or "class" to your correspondence. It isn't only the business firm or professional man who now raises his correspondence above the mediocre through aid of the printer's art.

Just your name and address in neat lettering at top or corner of the sheet will add an individual touch that at once raises your letter above the dead level of "ordinary".

The additional cost per letter is trifling.

But of course much depends on the printing.
